

MOTOR GUARD

PALM BEVELING TOOL

JMB-1250

A revolutionary pneumatic beveling tool that fits in the palm of the hand

This tool allows the fabricator to make precise and uniform cuts on a variety of materials and shapes.

At less than 5 inches in length and weighing under a pound, the Motor Guard Palm Beveling Tool works where larger, more awkward tools won't.

A tool chest essential, the JMB-1250 features an adjustable chamfer depth and three triple-edged cutting heads that are indexable for long life.
